# Amber Vision C400
Integrated Dual 4G Telematics HD Dashcam

Driving Behavior Analysis
The dashcam can detect the driver's dangerous driving practices such as harsh acceleration, harsh braking, etc.

Real-Time Tracking
The video recorder can be used as a tracker to locate the vehicle and collect and upload data such as speed and time In real-time.

Highly-Integrated Design
The HD road-facing camera and the angle-adjustable inward camera are housed in one unit. This saves space and makes it easier to install.

Panic Button
This enables the driver to call for help In emergencies.

Various Communication Standards
It is able to communicate via 2G/3G/4G, Wifi, and Bluetooth.

Event Video to Cloud
Videos triggered by a collision, vibrating, SOS call, and other exceptions will be auto uploaded to the cloud.

Let A.I. Enhance Your Fleet Management

With a highly integrated design, Amber Vision C400 comes with a 1080P front camera that records everything on the road an in the cabin. The Amber Vision C400 dash cam enables you to get a more complete view of the situation in case of an accident or emergency, day or night.
